Study on possible urban symbiosis		✓	✓								
Implementation of RECP opportunities and monitoring				✓	✓	✓	✓	✓	✓		
Feasibility studies for bankable projects						✓	✓	✓	✓	✓	✓
Policy briefs and information dissemination								✓	✓	✓	✓

- ❑ Confirmation of interest of participation
- ❑ Commitment from company; assign focal person
- ❑ Chemonics will conduct RECP assessments of at least 30-40 companies which will include:
 - A quick visit of the companies
 - A half-day visit, workshop and discussion with technical and decision-maker personnel at each targeted company to identify possible RECP interventions.
 - The expected economic, social and environmental benefits, as well as the expected reduction in energy, material, water and chemicals consumption of the opportunities will be estimated.

□ Implementation of RECP interventions and monitoring

- Provide hands-on training activities for the participating company and park management teams for the implementation of the opportunities identified.
- Establish an implementation plan for each RECP and industrial symbiosis intervention identified.
- Monitor the impact of the implemented RECP and industrial symbiosis options in terms of resource consumption and related financial savings.
- A minimum of two follow-up visits three months after finishing the RECP/IS assessment and at the end of the assignment will be conducted.
